JOANNE HUNT

JOS PUPPY PAWS

13475 STATE ROUTE C C

Type: ROUTINE INSPECTION

ROLLA, MO 65401

Date: Aug-21-2008

2.40 (b) (2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Sec. 2.40 Attending veterinarian and adequate veterinary care (dealers and exhibitors).

(b) Each dealer or exhibitor shall establish and maintain programs of adequate veterinary care that include:

(2) The use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries, and the availability of emergency, weekend, and holiday care.

***In the outdoor facility, there is 1 adult dog that has excessively matted hair on its back, hips, legs, head, and chest.

The owner needs to assure that a program of effective grooming is used on all of the dogs to show that appropriate methods are being used to prevent diseases in order to be in compliance with this regulation.

Affects 1 adult dog.

To be corrected by August 27, 2008.

3.6 (a) (2) (x)

PRIMARY ENCLOSURES.

Sec. 3.6 Primary enclosures.

Primary enclosures for dogs and cats must meet the following minimum requirements:

(a) General requirements.

(2) Primary enclosures must be constructed and maintained so that they:

(x) Have floors that are constructed in a manner that protects the dogs' and cats' feet and legs from injury, and that, if of mesh or slatted construction, do not allow the dogs' and cats' feet to pass through any openings in the floor.

***In the hutch-type facilities, most northern row, 2nd pen from the left, the wire flooring in this facility has multiple areas where the wire is broken creating holes in the flooring.

The owner needs to have floors that are constructed in a manner that will protect the dogs' feet and legs in order to

be in compliance with this regulation.

Affects 1 adult dog.

To be corrected by August 27, 2008.

3.11 (a)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Sec. 3.11 Cleaning, sanitization, housekeeping, and pest control.

(a) Cleaning of primary enclosures. Excreta and food waste must be removed from primary enclosures daily, and from under primary enclosures as often as necessary to prevent an excessive accumulation of feces and food waste, and to reduce disease hazards, insects, pests and odors.

***In the outdoor hutch facility, there is an excessive amount of feces under the hutches that is beginning to draw in flies.

The owner needs to remove the feces from under the hutches to reduce disease hazards, insects, pest and odors in order to be in compliance with this regulation.

This affects the dogs in the outdoor hutch facility.

To be corrected by August 28, 2008.

This inspection was conducted at 1429.
